

## Hunter Equipment Company, Inc. Mechanical and Process Equipment

United States / Jamaica / Dominican Republic

**Hunter Equipment Company, Inc.** ( HEC) was founded in 1994 as a distributor of pumps, valves, and mixers serving the industrial markets of the southern United States and Jamaica.

HEC's mission is quality-engineered equipment and service designed to lower costs of production and improve the efficiency of our customers' process.

This is accomplished by learning the process of the customers and working with our manufacturers to apply the right equipment to accomplish this mission.

HEC started operations in the Dominican Republic in April 2008. We have a local engineer, Mr. Franklin Jose Reyes based in Bona0. Mr. Reyes has over 12 years of experience at Falcondo as a maintenance engineer, and will be calling on your facility to assist with any mechanical and process equipment needs.

Ing. Franklin Jose Reyes
