

## Features

- May be used in wet or dry services easily with large, heavy particles and tramp material
- Heavy-duty, field replaceable elastomer sleeves
- No metal parts in contact with the flowing slurry
- 100% Isolation; bubble-tight shut-off results in absolutely zero downstream leakage
- Double-seated design provides bi-directional flow and shut-off
- No seat cavity where solids can collect and prevent full gate closure
- No gate or stem packing is required, eliminating packing leakage and maintenance

Field-Proven Clarkson KGA slurry knife gate valves feature heavy-duty, full port elastomer linings offering the ultimate in protection against heavy slurries.

## Pulp and Paper Applications Technical Data

Caustisizer  
Lime Mud  
White Liquor  
Green Liquor  
Power House Ash  
Clarifier Underflow

Size Range -----3"-24"  
Operating Pressure---100psi

Size Range -----26"-60"  
Operating Pressure---75psi

Sleeve:Natural Rubber, EPDM,

Nitril, Butyl  
Temperature-----Up to 400F
